The graph displays the change in the number of deaths per 100,000 population in Russia and Ukraine from March 2020 to March 2021. The Y-axis represents the number of deaths per 100,000 population, ranging from -0.275 to -0.350. The X-axis represents the week, ranging from 0 to 10. Russia is represented by a blue line, and Ukraine by a red line. Both countries show a sharp decline in deaths per 100,000 population starting in March 2020, reaching a low point around week 6, followed by a recovery and then a decline again towards the end of the period.
